

S5: CERTIFIED QUALITY AQUACULTURE (CQA) PROGRAMME OF WORK FOR STANDARDS

Proposed Programme of Work 2020

July - Dec 2020

CQA is planning to start a Farm and Processing Standard review from July to December 2020. This Standard review and development will continue into 2021. Topics to be included in development discussions include:

- Traceability – Information Management
- Social Requirements
- Plastic Management

The Standard review process will involve consultations with interest and expert parties and information from these consultations will be presented to the Technical Advisory Committee

- There is a tentative Technical Advisory Committee meeting planned for September 2020. Date, timings and agendas will be published when confirmed.
- There is a tentative Oversight Committee in November 2020 with date and timings to be confirmed,
- There is a planned review of CQA Programme's QMS throughout 2020.
