

To receive and maintain your vessel certification there are certain additional records you must keep updated on a regular basis. Depending on your fisheries and operations, there may be additional records you must keep updated regularly.

These can be assessed and managed through a document management and record keeping system or by paper records.

Remember grant aid is available through the Sustainable Fisheries Scheme under the following:

#### PART B: FLEET IMPROVEMENT

For example:

- Hygiene, health and working conditions
- Adding value to fishery products
- Investments on board that improve quality
- Environmentally friendly fishing gear

#### PART C1: CERTIFICATION
