AGD Score Card

SCORE

0

Clear

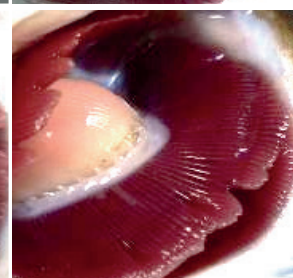

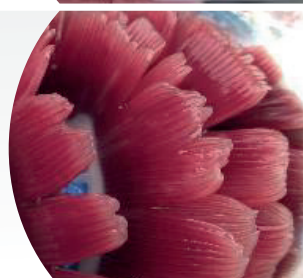

No sign of infection and healthy red colour

1

Very Light

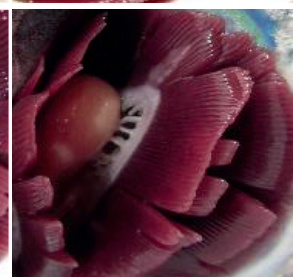

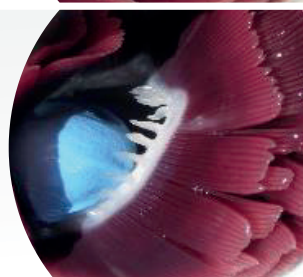

1 white spot, light scarring or undefined necrotic streaking

2

Light

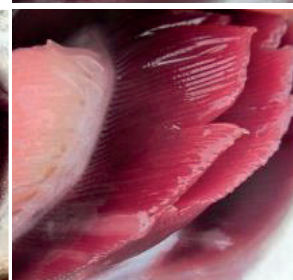

2-3 spots/small mucus patch

3

Moderate

Established thickened mucus patch or spot groupings up to 20% of gill area

4

Advanced

Established lesions covering up to 50% of gill area

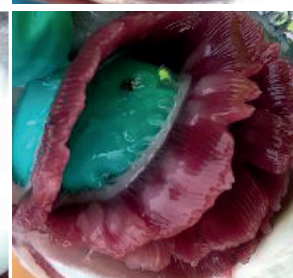

© Hamish Rodger

5

Heavy

Extensive lesions covering most of the gill surface (50%+)

© Hamish Rodger

Gill Score Sheets

PGD Score Card

SCORE

0

No sign of proliferative changes
and healthy red colour

1

Very slight thickening OR very
few lamellae affected

2

Frequent thickening but only
affecting tips

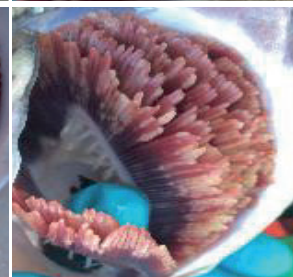

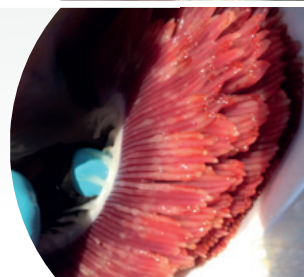

3

Most lamellae have thickened tips,
with some affected to more than
50% of lamellae length

4

Most lamellae thickened
progressing to more than
50% of lamellae length

5

Almost all lamellae affected
along entire length
*(NOTE - general paleness without
filament thickening should not be
scored as PGD)*
